

Project Title	Funding	Institution
Using a direct observation assessment battery to assess outcome of early intensive behavioral intervention for children with autism	\$30,000	New England Center for Children
Temperament, emotional expression, and emotional self-regulation in relation to later ASD diagnosis	\$29,500	Bryn Mawr College
Social evaluation in infants and toddlers	\$413,750	Yale University
Sleep, neuropsychological, mood, behavior, learning, and developmental problems in children with autism	\$18,085	Penn State College of Medicine
Reward systems in children with autism	\$29,840	University of California, Los Angeles
Predicting useful speech in children with autism (supplement)	\$59,553	Vanderbilt University
Predicting useful speech in children with autism	\$689,435	Vanderbilt University
Plasticity in autism spectrum disorders: Magnetic stimulation studies	\$14,963	Beth Israel Deaconess Medical Center
Performance indices of social disability in toddlers with autism	\$497,995	Yale University
Perceptual factors affecting social attention in autism spectrum disorders	\$82,750	Yale University
Perception of social and physical contingencies in infants with ASD	\$413,750	Yale University
Neural mechanisms underlying obsessive compulsiveness in ASD	\$32,236	University of Michigan
Multiple social tasks and social adjustment	\$144,875	California State University, Northridge
Multimodal studies of executive function deficits in autism spectrum disorders	\$48,954	Massachusetts General Hospital
Magnetic source imaging and sensory behavioral characterization in autism	\$176,201	University of California, San Francisco
Integrated function/structure image analysis in autism	\$339,441	Yale University
Imitation in autism	\$61,000	King's College London
Growth and maturation in children with autism	\$57,383	National Institutes of Health (NIH)
Ethnicity and the elucidation of autism endophenotypes	\$61,000	Washington University in St. Louis
Emotional mimicry in children with autism	\$48,647	University of Colorado Denver
Emotion, communication, & EEG: Development & risk	\$298,154	University of Miami
Electrophysiological signatures of language impairment in autism spectrum disorder (supplement)	\$149,432	Children's Hospital of Philadelphia
Electrophysiological signatures of language impairment in autism spectrum disorder	\$347,590	Children's Hospital of Philadelphia
Clinical and behavioral phenotyping of autism and related disorders	\$2,416,235	National Institutes of Health (NIH)
Child-initiated communicative interactions and autism intervention	\$322,692	University of California, Santa Barbara
Cellular structure of the amygdala in autism	\$45,218	University of California, Davis
Automated measurement of facial expression in autism: Deficits in facial nerve function?	\$127,500	University of Miami
Autism: Social and communication predictors in siblings	\$751,256	Kennedy Krieger Institute
A prospective multi-system evaluation of infants at risk for autism	\$0	Massachusetts General Hospital
A prospective multi-system evaluation of infants at risk for autism	\$0	Massachusetts General Hospital
Analyses of brain structure and connectivity in young children with autism	\$90,000	University of California, Davis

Project Title	Funding	Institution
Amygdala structure and biochemistry in adolescents with autism	\$27,618	University of Wisconsin - Madison
ACE Center: Eye-tracking studies of social engagement	\$307,211	Yale University
ACE Center: Early detection and intervention in infants at risk for autism	\$627,746	University of Washington
